

## The Payroll Funding Benefit

---

Client Short-term Financial Solutions

New Benefit for Our PEO Clients:

# Access extra cash to help your business thrive.

***We've teamed up with PEOs to offer a unique service called The Payroll Funding Benefit™.***

This benefit provides short-term cash that enables your business to **pay payroll on credit** (as if paid with a credit card), so you can use cash that would otherwise pay payroll to grow your business with additional inventory, new equipment, or new hires.

## WHY?

Many times, a company just needs extra cash to grow and invest in the business, and doesn't have it on hand because it's waiting for receivables.

*Having unpredictable, volatile, and uncertain cash flows costs time and money – period.*

## WHAT?

**The Payroll Funding Benefit™** solves this short-term cash flow problem. When you need cash you just call Payroll Funding Company, LLC (PFC) and we mutually arrange the date and amount required for payroll.

**The Payroll Funding Benefit™** is not permanent capital. Its purpose is to level out cash flow and free up funds, so payroll can still be paid while collections are slow, and you can continue to invest in your business uninterrupted.

PFC wires funds for payroll directly to your PEO on Thursday and you pay PFC back directly 5 days later plus 4% APR interest. That equates

to \$0.55 for every \$1,000 of payroll funded. A \$30,000 payroll costs \$16.50.

There is a 7-day grace period if a minimum payment is made.

*Since you are already with a PEO, you need no personal guarantee (your credit is not affected), no lien, no collateral, no up-front fee, and no need to supply additional documentation in order to get approval...not even a written application.*

## HOW?

Simply fill out **The Payroll Funding Benefit™** Enrollment Form and submit it to your PEO. PFC will interview you by phone and, if all goes well, you sign an agreement (valid for 1 year). We issue you a formal commitment. You then have access to short-term cash whenever you need it.

*From start to funded can take less than 24 hours.*

Payroll Funding is the short-term investment arm of a family trust. Because it invests its own funds it can make a fast commitment by phone without a written application.
